

The Fabulous Lunch Company

Wholesome food for growing minds

About us

School meals the way they should be.

We founded The Fabulous Lunch Company with one goal in mind: to provide high-quality, nutritionally balanced school meals that help young people to get all of the goodness they need, while building healthy eating habits that will last a lifetime.

We know that budgets are tight and time is always a factor. We know that it can be difficult to balance children's preferences with their nutritional requirements. We take care of that for you with a healthy, tasty lunch delivered right to your child's school each day.

Our menu changes seasonally to reflect what's available and is nutritionally checked to make sure that it contains the best possible fuel for your young person's day.

Our lunches

We make all of our lunches with a great balance of macro and micro nutrients to ensure that your child gets everything they need for the day. Our aim is to ensure that every meal is filling, varied and delicious!

Mains

Choose from one of our delicious homemade mains for each day. We have two daily choices and can accommodate a range of special dietary requirements.

Vegetable side

We balance your choice of main with healthy vegetables. These change every day to make sure that your child has a well balanced diet across the week.

Bread

Each meal comes with a portion of whole meal bread, fresh out of the oven that morning.

Dessert

Often a child's favourite part of a meal, our desserts are sweet enough to be a treat and nutritious enough to be healthy.
