

WOOKEY PRIMARY SCHOOL GOVERNING BODY

Together we learn and grow

Relationships, Health and Sex Education Policy (RHSE)

ADOPTED BY GOVERNORS: April 2023

REVIEWED by Governors: October 2024

Intent

At Wookey Primary School, we understand that pupils must be provided with an education that prepares them for the opportunities, responsibilities and experiences of adult life. A key part of this relates to relationships and health education, which must be delivered to every primary-aged pupil.

Definitions

In this policy, “relationships and sex education” is defined as teaching pupils about healthy, respectful relationships, focusing on family and friendships in all contexts, including online, as well as developing an understanding of human sexuality. Relationships education focuses on giving pupils the knowledge they need to make informed decisions about their wellbeing, health and relationships.

In this policy, “health education” is defined as teaching pupils about physical health and mental wellbeing, focusing on recognising the link between the two and being able to make healthy lifestyle choices. Health education focuses on equipping pupils with the knowledge they need to make good decisions about their own health and wellbeing.

Curriculum

All pupils must be taught the aspects of sex education outlined in the primary science curriculum. This includes teaching about the main external parts of the human body, how it changes as it grows from birth to old age, including puberty, and the reproductive process in some plants and animals.

At Wookey Primary School, we do not currently teach pupils sex education beyond what is required of the science curriculum. However, the school is free to determine whether pupils should be taught sex education beyond what is required of the national curriculum. Should specific needs and issues arise in our school and wider community over time, we will communicate and consult with stakeholders before extending the curriculum provision.

The religious backgrounds of all pupils will be considered, so that the topics that are covered are taught appropriately.

At this point we consider it appropriate to teach pupils about LGBTQ+, and we ensure that this content is fully integrated into the relationships, sex and health curriculum, particularly insofar as it overlaps with the PSHE curriculum, rather than delivered as a standalone unit or lesson.

We have joined the PSHE Association and use their resources to teach many aspects of PSHE and RSE. We follow the 'Changing and growing up' Relationships Education plans (written and designed by Medway Council) and share details of these with parents. We use PSHE Association lessons on Consent and Families where additional teaching is needed in these areas.

Delivery of lessons

Teachers are responsible for delivering a high-quality and age-appropriate relationships, and health curriculum in line with statutory requirements. They ensure that they do not express personal views or beliefs when delivering the programme. Teachers model positive attitudes to relationships, and health education. They are responsible for responding to any safeguarding concerns in line with the Child Protection and Safeguarding Policy.

Classes may be taught in gender-segregated groups, depending upon the nature of the topic being delivered at the time and/or the cultural background of pupils where it is only appropriate to discuss the body in single gender groups.

Consultation

We consult with parents, pupils and staff through meetings, training sessions, newsletters and letters. Feedback from parents, children and school staff is welcomed throughout the year. The school understands the important role parents play in enhancing their children's understanding of relationships, sex and health.

Parents have access to the content of the relationships, sex and health curriculum,

what is taught in each Key Stage and the legalities surrounding withdrawing their child from the subjects via the school website and/or Seesaw (the school's platform for communication) and by contacting class teachers directly.

Equality and accessibility

The school understands its responsibilities in relation to the Equality Act 2010, specifically that it must not unlawfully discriminate against any pupil because of their:

- Age
- Sex or sexual orientation
- Race
- Disability
- Religion or belief
- Gender reassignment
- Pregnancy or maternity
- Marriage or civil partnership

The school is committed to making reasonable adjustments wherever possible to promote accessibility and inclusivity of the curriculum. The school understands that pupils with SEND or other needs (such as those with social, emotional or mental health needs) are entitled to learn about relationships, and health education, and the programme will be designed to be inclusive of all pupils.

Withdrawing from subjects

Relationships and health education are statutory at primary and parents do not have the right to withdraw their child from the subjects. The one exception to this is the final lesson in Year 6 on 'How babies are made'.

Staff training

All staff members at the school will undergo training on a regular basis to ensure they are up-to-date with the relationship and health education programme and associated issues. Additional training will be available should there be updated guidance on the programme and any new developments or resources.

Wider curriculum links

The requirements of the RHSE curriculum will be delivered as a part of our commitment to our wider school values of respect, independence, engagement and being active. We will seek opportunities to draw links between relationships, sex and health education and other curriculum subjects wherever possible to enhance pupils' learning and understanding.

RHSE will link in particular to:

- Science, where pupils learn about the main external parts of the body and changes to the body as it grows from birth to old age, including puberty.
- Computing, where pupils learn about e-safety, including how to use technology safely, responsibly, respectfully and securely, how to keep personal information private and how to access help and support.
- PE, where pupils explore various

physical activities, are physically active for sustained periods of time, engage in competitive sport and understand how exercise can lead to healthier lifestyles.

- PSHE, where pupils learn about respect and difference, values and characteristics of individuals, the requirements of the law, their responsibilities and the possible consequences of their actions.

Legal framework

This policy has due regard to legislation and statutory guidance including, but not limited to:

- Section 80A of the Education Act 2002
- Children and Social Work Act 2017
- The Relationships Education, Relationships and Sex Education and Health Education (England) Regulations 2019
- Equality Act 2010
- DfE (2019) 'Relationships, Education, Relationships and Sex Education (RSE) and Health Education'
- DfE (2013) 'Science programmes of study: key stages 1 and 2'

Monitoring and review

The Headteacher and Deputy Headteacher will review this policy on an annual basis. The next scheduled review date for this policy is October 2025. This policy will also be reviewed in light of any changes to statutory guidance, feedback from parents, staff or pupils, and issues in the school or local area that may need addressing. The governing board is responsible for approving this policy. Any changes made to this policy will be communicated to all staff, parents and, where necessary, pupils.

Appendix 1

Relationships Education Curriculum Aims

In Key Stage 1 children will learn:

Families and people who care for me

- That families are important for them growing up because they can give love, security and stability.
- The characteristics of healthy family life, commitment to each other, including in times of difficulty, protection and care for children and other family members, the importance of spending time together and sharing each other's lives.

Caring friendships

- How important friendships are in making us feel happy and secure, and how people choose and make friends.
- The characteristics of friendships, including mutual

respect, truthfulness, trustworthiness, loyalty, kindness, generosity, trust, sharing interests and experiences, and support with problems and difficulties.

Respectful relationships

- The importance of respecting others, even when they are very different from them (for example, physically, in character, personality or backgrounds), make different choices, or have different preferences or beliefs.
- Which practical steps they can take in a range of different contexts to improve or support respectful relationships.
- The conventions of courtesy and manners.
- About the different types of bullying (including cyberbullying), the impact of bullying, responsibilities of bystanders to report bullying to an adult, and how to seek help.

Online relationships

- That people sometimes behave differently online, including pretending to be someone they are not.
- That the same principles apply to online relationships as to face-to-face relationships, including the importance of respect for others online, even when we are anonymous.
- The rules and principles for keeping safe online.
- How to recognise harmful content and contact online, and how to report these.
- How to critically consider their online friendships and sources of information.
- The risks associated with people they have never met.
- How information and data is shared and used online.

Being safe

- What sorts of boundaries are appropriate in friendships with peers and others – including in a digital context.
- About the concept of privacy and the implications of it for both children and adults.
- That it is not always right to keep secrets if they relate to being safe.
- How to report concerns or abuse, and the vocabulary and confidence needed to do so.
- Where to seek advice, for example, from their family, their school and other sources.

In Lower Key Stage 2 (LKS2) children will learn:

Families and people who care for me

- That others' families, either in school or in the wider world, sometimes look different from their family, but that they should respect those differences and know that other children's families are also characterised by love and care.
- That stable, caring relationships, which may be of different types, are at the heart of happy families, and are important for children's security as they grow up.

Caring friendships

- That healthy friendships are positive and welcoming towards others, and do not make others feel lonely or excluded.
- That most friendships have ups and downs, but that these can often be worked through so that the friendship is repaired or even strengthened, and that resorting to violence is never right.

Respectful relationships

- The importance of self-respect and how this links to their own happiness.
- That in school and wider society they can expect to be treated with respect by others, and that in turn they should show due respect to others, including those in positions of authority.
- About the different types of bullying (including cyberbullying), the impact of bullying, responsibilities of bystanders to report bullying to an adult, and how to seek help.

Online relationships

- That people sometimes behave differently online, including pretending to be someone they are not.
- That the same principles apply to online relationships as to face-to-face relationships, including the importance of respect for others online, even when we are anonymous.
- The rules and principles for keeping safe online.
- How to recognise harmful content and contact online, and how to report these.
- How to critically consider their online friendships and sources of information.
- The risks associated with people they have never met.
- How information and data is shared and used online.

Being safe

- That each person's body belongs to them, and the differences between appropriate and inappropriate or unsafe physical, and other, contact.
- How to respond safely and appropriately to adults they may encounter (in all contexts, including online) who they do not know.
- How to recognise and report feelings of being unsafe or feeling bad about any adult.
- How to report concerns or abuse, and the vocabulary and confidence needed to do so.
- Where to seek advice, for example, from their family, their school and other sources.

In Upper Key Stage 2 (UKS2) children will learn:

Families and people who care for me

- That marriage represents a formal and legally recognised commitment of two people to each other which is intended to be lifelong.
- How to recognise if family relationships are making them feel unhappy or unsafe, and how to seek help or advice from others if needed.

Caring friendships

- How to recognise who to trust and who not to trust.
- How to judge when a friendship is making them feel unhappy or uncomfortable.
- How to manage conflict.
- How to manage different situations and how to seek help from others if needed.

Respectful relationships

- What a stereotype is, and how they can be unfair, negative or destructive.
- The importance of permission-seeking and giving in relationships with friends, peers and adults.
- About the different types of bullying (including cyberbullying), the impact of bullying, responsibilities of bystanders to report bullying to an adult, and how to seek help.

Online relationships

- That people sometimes behave differently online, including pretending to be someone they are not.
- That the same principles apply to online relationships as to face-to-face relationships, including the importance of respect for others online, even when we are anonymous.
- The rules and principles for keeping safe online.
- How to recognise harmful content and contact online, and how to report these.
- How to critically consider their online friendships and sources of information.
- The risks associated with people they have never met.
- How information and data is shared and used online.

Being safe

- That each person's body belongs to them, and the differences between appropriate and inappropriate or unsafe physical, and other, contact.
- How to respond safely and appropriately to adults they may encounter (in all contexts, including online) who they do not know.
- How to recognise and report feelings of being unsafe or feeling bad about any adult.
- How to report concerns or abuse, and the vocabulary and confidence needed to do so.
- Where to seek advice, for example, from their family, their school and other sources.

Appendix 2

Health Education Curriculum Aims

In Key Stage 1 children will learn:

Mental Wellbeing

- That mental wellbeing is a normal part of daily life, in the same way as physical health.
- That there is a normal range of emotions, e.g. happiness, sadness, anger, fear, surprise and nervousness.
- The scale of emotions that humans experience in response to different experiences and situations.
- How to recognise and talk about their emotions, including having a varied vocabulary of words to use when talking about their own and others' feelings.
- How to judge whether what they are feeling and how they are behaving is appropriate and proportionate.
- The benefits of physical exercise, time outdoors,

community participation, and voluntary and service-based activity on mental wellbeing and happiness.

- Simple self-care techniques, including the importance of rest, time spent with friends and family, and the benefits of hobbies and interests.

Internet safety and harms

- That for most people, the internet is an integral part of life and has many benefits.
- About the benefits of rationing time spent online.
- The risks of excessive time spent on electronic devices.
- The impact of positive and negative content online on their own and others' mental and physical wellbeing.

- How to consider the effect of their online actions on others.
- How to recognise and display respectful behaviour online.
- The importance of keeping personal information private.
- Why social media, some computer games and online gaming, for example, are age-restricted.
- That the internet can also be a negative place where online abuse, trolling, bullying and harassment can take place, which can have a negative impact on mental health.
- How to be a discerning consumer of information online, including understanding that information (inclusive of that from search engines) is ranked, selected and targeted.
- Where and how to report concerns and get support with issues online.

Physical health and fitness

- The characteristics and mental and physical benefits of an active lifestyle.
- The importance of building regular exercise into daily and weekly routines and how to achieve this, for example by walking or cycling to school, a daily active mile, or other forms of regular, vigorous exercise.

Healthy eating

- What constitutes a healthy diet, including an understanding of calories and other nutritional content.
- The principles of planning and preparing a range of healthy meals.
- The characteristics of a poor diet and risks associated with unhealthy eating, including obesity, and other behaviours, e.g. the impact of alcohol on diet or health.

Health and prevention

- About safe and unsafe exposure to the sun, and how to reduce the risk of sun damage, including skin cancer.
- About dental health and the benefits of good oral hygiene and dental flossing, including regular check-ups at the dentist.
- About personal hygiene and germs including bacteria and viruses, how they are spread and treated, and the importance of hand washing.

Basic first aid

- How to make a clear and efficient call to emergency services if necessary.

In Lower Key Stage 2 (LKS2) children will learn:

Mental Wellbeing

- How isolation and loneliness can affect children and that it is very important they discuss their feelings with an adult and seek support.
- That bullying (including cyberbullying) has a negative and often lasting impact on mental wellbeing. • Where and how to seek support (including recognising the triggers for seeking support), extending to who in school they should speak to if they are worried about themselves or others.
- That it is common to experience mental ill health and, for the many people who do, the problems can be resolved if the right support is made available, especially if accessed early enough.

Internet safety and harms

- That for most people, the internet is an integral part of life and has many benefits.
- About the benefits of rationing time spent online.
- The risks of excessive time spent on electronic devices.
- The impact of positive and negative content online on their own and others' mental and physical wellbeing.
- How to consider the effect of their online actions on others.
- How to recognise and display respectful behaviour online.
- The importance of keeping personal information private.
- Why social media, some computer games and online gaming, for example, are age-restricted. • That the internet can also be a negative place where online abuse, trolling, bullying and harassment can take place, which can have a negative impact on mental health.
- How to be a discerning consumer of information online, including understanding that information (inclusive of that from search engines) is ranked, selected and targeted.
- Where and how to report concerns and get support with issues online.

Physical health and fitness

- The characteristics and mental and physical benefits of an active lifestyle.
- The importance of building regular exercise into daily and weekly routines and how to achieve this, for example by walking or cycling to school, a daily active mile, or other forms of regular, vigorous exercise. • The risks associated with an inactive lifestyle, including obesity.

Health and prevention

- The importance of sufficient good-quality sleep for good health, and that a lack of sleep can affect weight, mood and ability to learn.

In Upper Key Stage 2 (UKS2) children will learn:

Mental Wellbeing

- How isolation and loneliness can affect children and that it is very important they discuss their feelings with an adult and seek support.
- That bullying (including cyberbullying) has a negative and often lasting impact on mental wellbeing.
- Where and how to seek support (including recognising the triggers for seeking support), extending to who in school they should speak to if they are worried about themselves or others.
- That it is common to experience mental ill health and, for the many people who do, the problems can be resolved if the right support is made available, especially if accessed early enough.

Internet safety and harms

- That for most people, the internet is an integral part of life and has many benefits.
- About the benefits of rationing time spent online.
- The risks of excessive time spent on electronic devices.
- The impact of positive and negative content online on their own and others' mental and physical wellbeing.
- How to consider the effect of their online actions on others.
- How to recognise and display respectful behaviour online.
- The importance of keeping personal information private.
- Why social media, some computer games and online gaming, for example, are age-restricted.
- That the internet can also be a negative place where online abuse, trolling, bullying and harassment can take place, which can have a negative impact on mental health.
- How to be a discerning consumer of information online, including understanding that information (inclusive of that from search engines) is ranked, selected and targeted.
- Where and how to report concerns and get support with issues online.

Physical health and fitness

- The characteristics and mental and physical benefits of an active lifestyle.
- The importance of building regular exercise into daily and weekly routines and how to achieve this, for example by walking or cycling to school, a daily active mile, or other forms of regular, vigorous exercise.
- How and when to seek support, including which adults to speak to in school if they are worried about their health.

Drugs, alcohol and tobacco

- The facts about legal and illegal harmful substances and associated risks, including smoking, alcohol use and drug taking.

Health and prevention

- How to recognise early signs of physical illness, such as weight loss or unexplained changes to the body.
- The facts and science relating to immunisation and vaccination.

Basic first aid

- Concepts of basic first-aid, for example dealing with common injuries, including head injuries.

Changing adolescent body

- Key facts about puberty and the changing adolescent body, particularly from age 9 through to age 11, including physical and emotional changes.
- About menstrual wellbeing and key facts relating to the menstrual cycle.

Appendix 3: Curriculum links from PSHE Association lessons/Medway Council 2022

The table below maps where the lesson plans address the relevant content outlined in the Department for Education statutory guidance for Relationships Education/Relationships and Sex Education (RSE) and Health Education in each key stage.

	Lesson title and summary	PSHE education Programme of Study	DfE statutory RSHE guidance, key stages 1 and 2
Year 1 and 2	<p>1. <i>My special people</i> We are learning about the special people in our lives and how we care for one another</p> <p>2. <i>We are growing: human life cycle</i> We are learning about how we change as we grow</p> <p>3. <i>Everybody's body</i> We are learning to name different parts of the body, including genitalia</p>	<p>H25. to name the main parts of the body including external genitalia (e.g. vulva, vagina, penis, testicles)</p> <p>H26. about growing and changing from young to old and how people's needs change</p> <p>R1. about the roles different people (e.g. acquaintances, friends and relatives) play in our lives</p> <p>R2. to identify the people who love and care for them and what they do to help them feel cared for</p> <p>R13. to recognise that some things are private and the importance of respecting privacy; that parts of their body covered by underwear are private</p> <p>R20. what to do if they feel unsafe or worried for themselves or others; who to ask for help and vocabulary to use when asking for help; importance of keeping trying until they are heard</p> <p>R23. to recognise the ways in which they are the same and different to others</p> <p>L2. how people and other living things have different needs; about the responsibilities of caring for them</p>	<p>Caring friendships</p> <ul style="list-style-type: none"> • how important friendships are in making us feel happy and secure, and how people choose and make friends. • the characteristics of friendships, including mutual respect, truthfulness, trustworthiness, loyalty, kindness, generosity, trust, sharing interests and experiences and support with problems and difficulties. • that most friendships have ups and downs, and that these can often be worked through so that the friendship is repaired or even strengthened, and that resorting to violence is never right.

<p style="text-align: center;">Year 3</p>	<p><i>1. What makes a good friend?</i> We are learning about friendship, including why it is important and what makes a good friend</p> <p><i>2. Falling out with friends</i> We are learning how to maintain good friendships and about solving disagreements and conflicts with peers</p>	<p>R10. about the importance of friendships; strategies for building positive friendships; how positive friendships support wellbeing</p> <p>R11. what constitutes a positive healthy friendship (e.g. mutual respect, trust, truthfulness, loyalty, kindness, generosity, sharing interests and experiences, support with problems and difficulties); that the same principles apply to online friendships as to face-to-face relationships</p> <p>R13. the importance of seeking support if feeling lonely or excluded</p> <p>R14. that healthy friendships make people feel included; recognise when others may feel lonely or excluded; strategies for how to include them</p> <p>R17. that friendships have ups and downs; strategies to resolve disputes and reconcile differences positively and safely</p> <p>R18. to recognise if a friendship (online or offline) is making them feel unsafe or uncomfortable; how to manage this and ask for support if necessary</p>	<p>Respectful relationships</p> <ul style="list-style-type: none"> practical steps they can take in a range of different contexts to improve or support respectful relationships <p>Online relationships</p> <ul style="list-style-type: none"> that the same principles apply to online relationships as to face-to-face relationships, including the importance of respect for others online including when we are anonymous. <p>Being safe</p> <ul style="list-style-type: none"> about the concept of privacy and the implications of it for both children and adults; including that it is not always right to keep secrets if they relate to being safe.
<p style="text-align: center;">Year 4 and 5</p>	<p><i>1. Puberty: time to change</i> We are learning about the physical changes that happen during puberty</p> <p><i>2. Puberty: menstruation and wet dreams</i> We are learning about the biological changes that happen during puberty</p> <p><i>3. Puberty: personal hygiene</i> We are learning about the importance of personal hygiene during puberty</p> <p><i>4. Puberty: emotions and feelings</i> We are learning about emotional changes during puberty</p>	<p>H15. that mental health, just like physical health, is part of daily life; the importance of taking care of mental health</p> <p>H17. to recognise that feelings can change over time and range in intensity</p> <p>H18. about everyday things that affect feelings and the importance of expressing feelings</p> <p>H19. a varied vocabulary to use when talking about feelings; about how to express feelings in different ways;</p> <p>H20. strategies to respond to feelings, including intense or conflicting feelings; how to manage and respond to feelings appropriately and proportionately in different situations</p> <p>H26. that for some people gender identity does not correspond with their biological sex</p> <p>H30. to identify the external genitalia and internal reproductive organs in males and females and how the process of puberty relates to human reproduction</p> <p>H31. about the physical and emotional changes that happen when approaching and during puberty (including menstruation, key facts about the menstrual cycle and menstrual wellbeing, erections and wet dreams)</p> <p>H32. about how hygiene routines change during the time of puberty, the importance of keeping clean and how to maintain personal hygiene</p> <p>H34. about where to get more information, help and advice about growing and changing, especially about puberty</p>	<ul style="list-style-type: none"> how to recognise and report feelings of being unsafe or feeling bad about any adult. how to report concerns or abuse, and the vocabulary and confidence needed to do so. where to get advice e.g. family, school and/or other sources. <p>Mental wellbeing</p> <ul style="list-style-type: none"> that mental wellbeing is a normal part of daily life, in the same way as physical health. that there is a normal range of emotions (e.g. happiness, sadness, anger, fear, surprise, nervousness) and scale of emotions that all humans experience in relation to different experiences and situations. how to recognise and talk about their emotions, including having a varied vocabulary of words to use when talking about their own and others' feelings.

1. Puberty: recap and review

We are learning about the changes that happen during puberty (recap from year 4-5)

2. Puberty: change and becoming independent

We are learning about managing change and becoming more independent

3. Positive and healthy relationships

We are learning about positive, healthy relationships

4. How babies are made

We are learning about how a baby is made

In addition to recapping on the Year 4 and 5 content:

H24. problem-solving strategies for dealing with emotions, challenges and change, including the transition to new schools

H33. about the processes of reproduction and birth as part of the human life cycle; how babies are conceived and born (and that there are ways to prevent a baby being made); how babies need to be cared for¹

H35. about the new opportunities and responsibilities that increasing independence may bring

H36. strategies to manage transitions between classes and key stages

R1. to recognise that there are different types of relationships (e.g. friendships, family relationships, romantic relationships, online relationships)

R2. that people may be attracted to someone emotionally, romantically and sexually; that people may be attracted to someone of the same sex or different sex to them; that gender identity and sexual orientation are different

R5. that people who love and care for each other can be in a committed relationship (e.g. marriage), living together, but may also live apart

R6. that a feature of positive family life is caring relationships; about the different ways in which people care for one another

R30. that personal behaviour can affect other people; to recognise and model respectful behaviour online

R31. to recognise the importance of self-respect and how this can affect their thoughts and feelings about themselves; that everyone, including them, should expect to be treated politely and with respect by others (including when online and/or anonymous) in school and in wider society; strategies to improve or support courteous, respectful relationships

Changing adolescent body

- key facts about puberty and the changing adolescent body, particularly from age 9 through to age 11, including physical and emotional changes.
- about menstrual wellbeing including the key facts about the menstrual cycle.

Appendix 4

Excerpts from '[Department for Education Statutory guidance National curriculum in England: science programmes of study. Updated 6 May 2015](#)'

Year 2

Animals, including humans

Pupils should be taught to:

- notice that animals, including humans, have offspring which grow into adults
- find out about and describe the basic needs of animals, including humans, for survival (water, food and air)
- describe the importance for humans of exercise, eating the right amounts of different types of food, and hygiene

Notes and guidance (non-statutory)

Pupils should be introduced to the basic needs of animals for survival, as well as the importance of exercise and nutrition for humans. They should also be introduced to the processes of reproduction and growth in animals. The focus at this stage should be on questions that help pupils to recognise growth; they should not be expected to understand how reproduction occurs.

The following examples might be used: egg, chick, chicken; egg, caterpillar, pupa, butterfly; spawn, tadpole, frog; lamb, sheep. Growing into adults can include reference to baby, toddler, child, teenager, adult.

Pupils might work scientifically by: observing, through video or first-hand observation and measurement, how different animals, including humans, grow; asking questions about what things animals need for survival and what humans need to stay healthy; and suggesting ways to find answers to their questions.

Year 5

Living things and their habitats

Pupils should be taught to:

- describe the differences in the life cycles of a mammal, an amphibian, an insect and a bird
- describe the life process of reproduction in some plants and animals

Notes and guidance (non-statutory)

Pupils should study and raise questions about their local environment throughout the year. They should observe life cycle changes in a variety of living things, for example, plants in the vegetable garden or flower border, and animals in the local environment. They should find out about the work of naturalists and animal behaviourists, for example, David Attenborough and Jane Goodall.

Pupils should find out about different types of reproduction, including sexual and asexual reproduction in plants, and sexual reproduction in animals.

Pupils might work scientifically by: observing and comparing the life cycles of plants and animals in their local environment with other plants and animals around the world (in the rainforest, in the oceans, in desert areas and in prehistoric times), asking pertinent questions and suggesting reasons for similarities and differences. They might try to grow new plants from different parts of the parent plant, for example, seeds, stem and root cuttings, tubers, bulbs. They might observe changes in an animal over a period of time (for example, by hatching and rearing chicks), comparing how different animals reproduce and grow.

Animals, including humans

Pupils should be taught to:

- describe the changes as humans develop to old age

Notes and guidance (non-statutory)

Pupils should draw a timeline to indicate stages in the growth and development of humans. They should learn about the changes experienced in puberty.

Pupils could work scientifically by researching the gestation periods of other animals and comparing them with humans; by finding out and recording the length and mass of a baby as it grows.

Year 6

Animals including humans

Pupils should be taught to:

- identify and name the main parts of the human circulatory system, and describe the functions of the heart, blood vessels and blood
- recognise the impact of diet, exercise, drugs and lifestyle on the way their bodies function
- describe the ways in which nutrients and water are transported within animals, including humans

Notes and guidance (non-statutory)

Pupils should build on their learning from years 3 and 4 about the main body parts and internal organs (skeletal, muscular and digestive system) to explore and answer questions that help them to understand how the circulatory system enables the body to function.

Pupils should learn how to keep their bodies healthy and how their bodies might be damaged – including how some drugs and other substances can be harmful to the human body.

Pupils might work scientifically by: exploring the work of scientists and scientific research about the relationship between diet, exercise, drugs, lifestyle and health.

Evolution and inheritance

Pupils should be taught to:

- recognise that living things have changed over time and that fossils provide information about living things that inhabited the Earth millions of years ago
- recognise that living things produce offspring of the same kind, but normally offspring vary and are not identical to their parents
- identify how animals and plants are adapted to suit their environment in different ways and that adaptation may lead to evolution

Notes and guidance (non-statutory)

Building on what they learned about fossils in the topic on rocks in year 3, pupils should find out more about how living things on earth have changed over time. They should be introduced to the idea that characteristics are passed from parents to their offspring, for instance by considering different breeds of dogs, and what happens when, for example, labradors are crossed with poodles. They should also appreciate that variation in offspring over time can make animals more or less able to survive in particular environments, for example, by exploring how giraffes' necks got longer, or the development of insulating fur on the arctic fox. Pupils might find out about the work of paleontologists such as Mary Anning and about how Charles Darwin and Alfred Wallace developed their ideas on evolution.

Note: at this stage, pupils are not expected to understand how genes and chromosomes work.
