

Wookey Primary School Curriculum Threads

Themes that run through all of our Teaching and Learning

Mental Health and Wellbeing

We believe that a happy, regulated child is a child ready to learn. Across every classroom, we prioritise emotional literacy, resilience, and the understanding that looking after our minds is just as important as looking after our bodies.

The Freedom to Play

Play is the universal language of childhood. Whether in the early years or Upper Key Stage 2, we protect the right to explore, imagine, and create. It is through play that our children solve problems and build lifelong friendships.

British Values

Democracy, the rule of law, individual liberty, tolerance of different faiths and beliefs and mutual respect are not just lessons; they are the heartbeat of our school. We foster an environment where every voice is heard and every person is valued.

The Power of Oracy

Finding your voice is a superpower. We focus on the art of communication—teaching our children to speak with confidence, listen with empathy, and use their words to change the world around them.

The Local Area and Community

Our school doesn't end at the gates. We are proud of our roots and actively engage with the people and places around us, helping our children understand their place in our local story and their responsibility to our neighbours.

Learning Behaviours

Success isn't just about "getting it right"; it's about how we approach the challenge. We develop curiosity, persistence, and the bravery to take risks and learn from mistakes.

Individuality

We don't want our children to "fit a mould"—we want them to break it. We celebrate the unique quirks, talents, and backgrounds that make every student and staff member an essential part of our tapestry.

Life Experiences

We aim to broaden horizons by providing a range of experiences. By exposing our children to culture, nature, and new perspectives, we ensure that every child leaves us with a rich bank of memories and possibilities.
